As a project consultant with Interface Consulting, Jennifer Hatten concentrates on project management oversight, engineering and construction claims, and design and construction deficiencies. Ms. Hatten’s experience in managing capital improvement and fast-track hotel and casino projects provides unique insight into project delivery, project cost and schedule controls, building codes, change orders, and RFIs. As a LEED Accredited Professional certified by the U.S. Green Building Council, she also possesses knowledge in sustainable design and green building practices.

Work History

Interface Consulting International, Inc.

Houston, Texas

Project Consultant

- Focuses on project management oversight, engineering and construction claims, and design and construction deficiencies
- Proficient in reviewing construction drawings and specifications, providing root cause analyses, as well as analyzing remediation, repairs, and recovery costs and recommendations
- Quantifies damages associated with schedule delays, labor productivity, construction defects, changes in work scope, and other loss issues
